NEGRO CAPTURED, IDENTIFIED AND IS TAKEN TO PRISON

GREENSBORO, N. C., June 6.—Will Davis, thought to be the negro who attempted assault Miss Florence Reddick near her home in Randolph county a few miles from High Point Monday afternoon about 4:30 o'clock, was arrested near Winston-Salem this afternoon a few minutes after 12 o'clock; taken to the home of Miss Reddick, where, according to officers, Miss Reddick declared she was certain he was her assailant, brought to Greensboro and lodged in the Guilford county jail for about two hours and then taken to Raleigh by Sheriff J. H. Smith, of Randolph county, the city of Raleigh having this morning on number 22 at 4:05 o'clock.

High Point was quiet tonight, according to reports received here, citizens finding that the negro had been apprehended shortly after he was brought through that city on the way to Greensboro. After it was learned that he had been taken to Raleigh no other moves were made in High Point.

SEEK REDUCTION IN BELL RATES

ATLANTA, Ga., June 6.—Material reduction in telephone rates charged by the Southern Bell Telephone and Telegraph Company was asked of the Federal railroad commission here today by representatives of Atlanta, Macon and Rome.

Atlanta officials in a formal protest filed against the rates termed the service "poor and inadequate." R. C. Turner, city electrician, Atlanta, the principal witness, heard today declared that cost of service is less than formerly. No definite decrease was asked that being left to be developed later in the hearing.

Mayor Key and Jesse M. Wood, city attorney, also appeared for Atlanta, while Harry B. Strozier, city attorney of Macon, appeared for that city and Max Meyerhardt, city attorney of Rome, represented the north Georgia city.

Representatives of the company recently appeared with statistics designed to show that the rates should not be disturbed.

PARENTS CAN ADD YEARS TO LIFE OF CHILDREN

ATLANTA, Ga., June 6.—Twenty-five years or more can be added to the average life of the coming generation if parents will spend a few hours in learning and teaching their children the known facts regarding diet and nutrition, Dr. Seale Harris, of Birmingham, president of the Southern Medical association, asserted in an address here tonight.

KILLED BY TRAIN

ASHEVILLE, N. C., June 6.—Gilbert Smith of Old Fort, was instantly killed and Elsie Lester and Sidney Carter of Salisbury, injured, when Southern freight train number 22 was derailed at Dendron tonight, the engine and eight cars leaving the tracks. A passenger train was operated from Asheville to the scene of the wreck, where passengers on number 21 from Salisbury were transferred. Smith is believed to have been trespassing on the train when he met his death.

Under the name of "Characteristics," Dr. Bright, a London physician, published a system of shorthand in 1888.

LOVE RITUAL OF "HOUSE OF DAVID" BRINGS NEW INVESTIGATIONS

BY ROY GIBBONS

BENTON HARBOR, Mich., June 7.—"King Benjamin" Purnell, who hasn't shaved or had a haircut in 10 years, is going to be investigated again.

Investigators have been snooping around the House of David, temple of the Flying Rollers, a cult of some 200 followers who live in a combination religious colony and amusement park along the shore of Lake Michigan, just outside of Benton Harbor.

Other investigations, by county and state, and promised within three months by Charles W. Gore, prosecuting attorney of Warren county.

Gore has been spurred to action by reports of peculiar love affairs in the House of David, and by rumors of mysterious disappearances of cult members on High Island, a desolate outpost of the organization in upper Michigan.

These reports have been persistent for years, says Gore. "I believe the time has arrived when they should be either proved or disproved by thorough investigation."

Blames His Enemies
"My enemies are spreading false reports, as they did formerly," says "King Benjamin." "I am a man of God and live according to His teachings."

Purnell and his wife—she's "Queen Mary"—are credited by their followers with having had a vision appointing them God's messengers. They

preached that the end of the world was near; several times "King Benjamin" was quoted as having fixed specific dates, but this he denies.

Now "King Benjamin" says the end is coming within 25 years.

That apparently concerns him less than the impending investigations and the inroads modernism is making on the cult—including jazz and capitalism.

"Our colony has endured despite the slanders of our enemies," "King Benjamin" says, "but of late modernism has done much harm. Experiencing jazz music and similar curses have hit us hard."

"These manifestations of modernism have sown seeds of discontent in the hearts of some members. These no longer live in the faith, although they do let their hair and beards grow. But that is not enough."

"We are nearing the end of sin and crime. Christ is coming again within the next 25 years. When He comes every living member of the House of David will be glorified. But they all must live right, eat no meat, work for each other and forget themselves."

The colony, established in 1903, is run on a communal basis; all members pool their resources and work for the common good. They raise fruit and operate an amusement park, a vegetarian restaurant and therapeutic springs, all patronized by unbelievers. And they have a long-haired and bearded baseball team.

Marriage formerly was forbidden, but is fostered now. Drunken children into the world once was branded sinful, but children no longer are barred.

—Miss Ethel Robertson is the guest of Mr. and Mrs. Robert Herndon, Jr., South Main street.

—Mrs. J. R. Rougan of Asheville, N. C., is the guest of Mrs. Louisa Rougan on West Main.

—Mr. T. H. Howlin is the guest of friends in the city.

—James H. Lee is reported quite debilitated at his home on Green street.

—Mrs. B. L. Shadler has returned from Florida, where she spent the winter.

TRAMMELL IS IN LEAD IN FLORIDA

JACKSONVILLE, Fla., June 6.—Scattering returns from today's Democratic primary as compiled by the Florida Times Union indicated at 11 o'clock tonight the re-nomination of Senator Park Trammell. Senator Trammell at that hour was leading his opponent, former Governor Albert W. Gilchrist in all parts of the state except a few precincts in west Florida.

Of 1,067 precincts in the state, reports from a few more than 100 had been received here at that hour. Incomplete returns from 25 counties as reported by Florida newspapers, to the Associated Press tonight, indicated the nomination of Park Trammell as United States senator by a majority of three to one over his opponent, former Governor Albert W. Gilchrist.

On the face of these incomplete returns, the former governor was leading the only four counties, Bradford, Hardee, DeSoto and Jackson. Meagre returns were received from west Florida.

Returns from the fourth congressional district showed Representative W. J. Sears for in the lead over W. A. MacWilliams, president of the state senate. Mr. MacWilliams apparently has been defeated in his home town, St. Augustine.

A close race developed in the second district, where Representative Frank Clark is opposed for re-election by Colonel Robert W. Davis, who served in Congress 18 years ago. On the face of the returns Clark was slightly in the lead.

Returns from the third district were meagre, but the vote so far compiled showed Representative Smithwick leading Ben S. Hancock of Pensacola.

In the first district, Representative H. J. Drane, was unopposed. Little could be learned tonight on which to base even a conjecture as to the fate of two women candidates for the state legislature.

In Volusia county, the so-called Ku Klux Klan ticket won out in part at least on the basis of virtually complete returns. This ticket based its campaign around a fight on an alleged ring now controlling the county's government, and never denied or affirmed the charge that the candidates were put in the field by the Klan. During the campaign a representative of the Klan from Atlanta defended the organization.

LESSONS IN BASEBALL QUALIFICATIONS OF A GOOD LEFT FIELDER

LEFT HANDED THROWER PICKING UP BALL ON LEFT FIELD LINE

The above illustration shows how the left handed thrower is at a disadvantage in picking up balls hit on his right side. The player shown above must turn completely around to make his throw. This delay gives the base runner a great advantage. The left fielder should, if possible, be a right handed thrower.

On balls hit to his left hand between him and the center fielder the right handed thrower who is playing left field finds himself better able to shift his position to throw to the infield than does the left handed thrower who may be obliged to field a ball hit down the foul line. And when working to his left side the right handed thrower in left field will have the assistance of the center fielder, something that the man working on the foul line cannot hope for.

While the new, very fast, quick flying ball, a ball that flies off the bat with extreme initial velocity and to great distances has complicated and changed the conditions under which fielders operate, it may be said that all outfielders should play as close to the diamond as is consistent with safety. Most outfielders especially most left fielders have a habit of playing very deep, then coming in fast for balls hit between them and the infield.

In the days prior to 1912, before the ball was made so fearfully fast and quick flying, the left fielder who played in close got many line flies, pop flies and held runners close to bases by getting ground balls in a hurry. Then, playing with the slow

er ball, a good outfielder could get back handsly to take fly balls hit over his head. Now with the ball flying very fast and on a line from the bat the left fielder cannot afford to take chances by playing in close. So his duties are simplified. He must play back so far that his chances for throwing a man out at the plate are greatly reduced and he cannot render the infielders assistance in restricting base runners to as few bases as possible that he once rendered.

Now outfielders play with their backs to the fences and let short flies, short line drives, etc., go, and devote themselves to taking care of the long hits. Still the fundamental qualifications of the outfielder are the same. He should be able to go back and to either side of him with ease and surety, be a sure catch, a good thrower and play ground balls as surely and effectively as a shortstop may play them.

Ford Is Ready To Begin Work At a Moment's Notice

DETROIT, Mich., June 6.—(By The Associated Press.) Henry Ford is prepared to begin work on the development of the Mussel Shoals water power and nitrate plants upon a few hours notice should his offer to take over and operate the project be accepted by Congress. It was learned today from sources close to the manufacturer.

Acceptance of his offer, it was said, would be followed immediately by the dispatch of telegrams to various parts of the country that would indicate the Detroit manufacturer's plan to create an industrial center around Mussel Shoals that would be the "growing achievement of his career."

Mr. Ford believes acceptance of his proposal and fruition of his plans will prove the worth of water power and

that an enterprise like Mussel Shoals can be made to become an asset to the public rather than a liability. The project, it was pointed out, will under Mr. Ford's plans, have paid for itself before the lease expires.

W. H. Mayo, chief engineer of the Ford Company, has returned to Detroit and Mr. Ford no longer is personally represented at Washington in connection with the shoals project. No plans have been made for further negotiations with Congress. It was pointed out, however, that Mr. Ford's reply to the counter-proposal of the House military committee was his final statement.

Wage Reduction Called Unfair By Labor Leaders

CINCINNATI, Ohio, June 6.—(Associated Press.)—Characterizing the shop's wage cut decision as a "hardly dressed up" and obviously unfair apology for the \$60,000,000 slash, B. M. Jewell, head of the six shop crafts unions declared today that the evidence in the case had been totally ignored and that the decision gave rise to the belief that the board was trying "to help the railroads carry out their labor policy."

The labor union head, here for a conference of union heads which today called for a strike vote of 1,200,000 railway workers, said that the board's latest cut "could be justified by no stretch of the facts."

"The board was offered evidence as to the amount necessary to secure the necessities of life for railroad workers," he said. "The rates in this decision are so far below those necessary that this evidence must have been ignored."

MASONIC NOTICE

Attend a Stated Communication of The Morrocco Lodge, No. 219 A. F. & A. M. to be held in Pythian Building tomorrow (Thursday) night at 8 o'clock p. m.

Work in the Entered Apprentice Degree. Visiting brethren always welcome. By order of N. OAKES, W. M. JACOB SILVERMAN, Sec'y.

TO THE CITIZENS OF DANVILLE:

I respectfully announce myself a candidate for re-election to the office of Superintendent of the Water, Gas and Electric Departments of the City of Danville, subject to the Democratic primary to be held August 1, 1932.

I started with these Departments as Secretary and Treasurer in 1890; in 1898 upon the recommendation of the late Capt. C. A. Ballou (then Engineer and Superintendent) I was elected by the City Council Assistant Superintendent. In 1903, at the death of Captain Ballou, I was chosen Superintendent, and by successive City Councils from that date until 1914 I was re-elected by unanimous vote. In 1914, 1916, 1918 and 1920, I have been re-elected by the people at popular election without opposition.

During this period of 32 years no charge has been made against me as a citizen and none against my administration of the properties entrusted to my supervision.

Since I have been Superintendent, the City Pump House and Filter Plant, the City Gas House and the City Electric Light and Power Station have all been planned and erected. During the period of my administration, our patronage has grown from perhaps 1,500 customers to a total of more than 12,000. Our receipts have increased from less than \$50,000.00 a year to more than \$500,000.00 a year. Whereas these Departments formerly produced receipts less than the disbursements, they now turn into the general treasury of the City, under normal conditions, from \$75,000.00 to \$100,000.00 in excess of the disbursement. When the City Council placed me in financial charge of the City's Departments, these property values exclusive of any franchises, was \$250,000.00. Since that time and while the City Council and the people of Danville have seen fit to continue me in charge of these Departments, these property values have increased \$1,000,000.00, so that the fair value of the property owned by the City at this time is not less than \$1,250,000.00. It is a matter of pride to me as a citizen of Danville that whereas the citizens of Greensboro, High Point, Salisbury, Winston-Salem, Durham, Raleigh and other North Carolina cities pay \$1.90 a thousand cubic feet for gas, the gas consumers of Danville pay only \$1.20. This means that during the past year the gas takers in Danville paid for the gas they used \$91,000.00 less than they would have been charged for the same quantity and quality of gas in any of the cities above mentioned. A like saving in water and electric light and power will be seen by comparing the rates in cities similarly situated with Danville, throughout the entire South.

The records of the City Council will show that as Superintendent of the Gas Department I have always, in response to their requests to me for recommendations, advised against their raising the price of gas, and I shall in the future make to the Council a recommendation for a reduction in the price of gas just as soon as it can be done without cutting the wages of our faithful employees. It should be remembered that Danville was one of the very few cities in the country which did not raise its rates on water or electricity in the abnormal cost period, during and subsequent to the war. At the present time our rates on water, gas and electricity are lower than any city in the United States similarly located.

It would seem that a business of this magnitude and requiring trained and experienced supervision would more likely procure satisfactory results under an official who had devoted 32 years to its practical management than could be hoped for under the management of one who has had no experience whatever in producing and distributing water, gas and electricity.

I will appreciate the good will, the vote and the influence of the Citizens of Danville in giving me a vote of confidence upon my record, though it will be impossible to see each voter personally in so short a time. If re-elected I pledge a faithful discharge of my duty and to stand in the future as I have endeavored to stand in the past for the best interests of the City of Danville, and its citizens.

Respectfully submitted, FRANK TALBOTT.

19 ARRESTS ARE MADE IN STRIKE DIST. TUESDAY

MANCHESTER, N. H., June 6.—Nineteen arrests were made in this city late today as a result of the first disturbance here since the textile strike started on February 12. Several thousand strikers had gathered on the streets near the Coolidge mill of the Amoskeag Manufacturing Company, which was re-opened yesterday. Many stones were thrown but no one was hurt.

The crowd had been jeering workers leaving the mill. Some of their number forced their way to gates of a street which had been closed by the police. Police officers immediately arrested five of these.

A crowd followed the officers and their prisoners to the police station.

and remained in that vicinity until taken to the police station. When the fourteen arrests including seven women were made near the station, the police took them to the station and placed them in the city jail. The Manchester strike committee today said that it was willing to accept the suggestion that the wage question be submitted to the State board of conciliation and arbitration. The committee has refused to arbitrate the matter of working hours.

DYNAMITE WAS EXPLODED UNDER TROLLEY CAR

COLUMBIA, S. C., June 6.—Dynamite, placed on the tracks of the Columbia Railway, Gas and Electric Company, exploded under a street car in a suburb this morning, demolishing the car and damaging both the car and rails.

The car was carrying no passengers and no one was injured by the explosion, despite the fact that the entire force of the blast was spent directly under the car from which it came a few feet from the spot where both the conductor and motor-man were standing. Both county and city officers are working on the case, but as yet no arrests have been made in connection with the explosion.

The outstanding purpose of the Civitas clubs is the building of good citizenship, the president added, and he declared that "unless saved from the errors of the past by such organizations as Civitas, our civilization will perish from the earth as Egypt, Babylon, Greece and Rome."

Compulsory education of aliens was urged by Mr. Shropshire and turned to the native citizens he said, one who takes no interest in civic affairs is politically worse than dead."

Washington, D. C. and Miami, Fla., are seeking the next convention.

KING VICTOR HAS NARROW ESCAPE

ROME, Italy, June 6.—By the Associated Press)—While preceding an automobile today for Palermo, where he was to take part in the commencement of the new harbor work, King Victor Emmanuel had a narrow escape from death. The automobile was barely missed by a passing train on a grade crossing near Anzio.

The king congratulated the chauffeur on his presence of mind in the traffic jam on the narrow bridge, the tracks ahead of the approaching train. The chauffeur, however, was completely unimpaired by the incident and was securely able to continue at the wheel. The king showed the king's concern of any of these in the automobile.

DOPE SMUGGLED IN VIRGINIA PEN

RICHMOND, Va., June 6.—Major Rice, in charge of the Virginia penitentiary, discovered that dope was being taken into the prison, and he has begun an investigation. Two of the convicts have been summarily transferred to the road force, believed to have been the leaders in the traffic. Just how long the king has been in the prison is not known.

The king is believed to have been in the prison for a few days. The investigation now under way is expected to lead to uncovering of the systems of smuggling in the dope. As the king is not a widely scattered personage, there is no indication that any others than the convicts have been caught in the traffic.

Whole sharks, found in the Indian and Chinese markets, often attain a length of 60 feet, but are quite harmless.

Summer Trips

In planning a summer trip do not forget to arrange with us for a good supply of fresh, reliable, and comfortable service is dependable on the water and you will be absolutely sure of results if you send your traveling apparel to us. Teichman Insists That He Is White

Person Arrested and Placed Under Heavy Bonds Upon a Complaint Made.

FORT WORTH, Tex., June 6.—Fred W. Teichman, thirty-seven years old, insists that he is white. The courts say that he is a negro. After his arrest he was placed under heavy bonds until it is established to which race he really belongs. Teichman has lived in Fort Worth for twenty-one years, has made a success in a small way, has earned a reputation for trustworthiness and is an official in a North Side Methodist church.

He has been married three times, each wife having been white. No. 1 divorced him, No. 2 died after having given birth to two children and he has been living with No. 3 for the last five years.

The charge against Teichman, according to the Texas statutes, is "Miscegenation." The law prohibits the marriage of any person in whose veins runs the blood of a negro with the blood of a white person. Violation of the statute is punishable by a term of two to five years in penitentiary.

Teichman, an expert bookkeeper and accountant, says he never saw his mother, but understood from his father that she was white and said it was seldom that his father ever talked about the mother.

"This is the most unfortunate affair of my whole life," said Teichman while in jail to a reporter. He went as he talked. "I have tried to live an honorable life and I know I have been 'white' in my dealings. I never was arrested or charged with anything before."

"I was born in Houston and my father was well known, and, of course, white. Yet when I was a boy my father placed me in a negro school. When I reached fourteen years of age I realized I should not be associating with negroes, being of a different race. I ran away from home, still thinking I was white and I have been recognized as a white man ever since."

"I did not go to school much when I was with my father, but I made my own living and studied as I worked. I never dreamed anything like this would come up."

Investigation of Teichman's case began a week ago when information was received by the grand jury that he was living with a white woman, Assistant District Attorney Martin was sent to Houston to obtain evidence and upon his return the complaint was filed.

Martin said he talked with several merchants in Houston for whom Teichman had worked when a boy and he quoted these merchants as saying that they had supposed Teichman was a negro. A teacher of a negro school which the prisoner attended also told Martin that he always had thought Teichman was of the negro race.

The record book at the County jail has a separate column for the blacks and whites, but no entry was set down when Teichman was brought in.

If county officials have no other way of proving their case they may call in experts to make blood tests.

The day following Teichman's arrest his wife, his neighbors and members of his church came to his assistance. They went in a body to the court house and fifty of them signed his bond of \$2,000. They were emphatic in their declarations that they believed Teichman is white and that he has been done an injustice.

Mosquito-Proof

Pure-bred sacred bull of India on ranch at Palacios, Tex. Cattle men are planning to rear such animals in the swamps of Texas, Florida, Louisiana and Mississippi because mosquitoes leave 'em alone.

Held

James J. Cunningham, race track follower, is being held by Westchester county (N. Y.) authorities as a material witness in the Walter S. Ward slaying case.

SOMERSET, Ky., June 6.—Members of a road show passed through here tonight from Whittier, City where they said their tents had been raided with bullets by a mob which forced them to depart so hurriedly that they left part of their equipment.

His Nap Disturbed, He Kills Cellmate

Stranger Was Noisy and He Wanted to Sleep, Prisoner Explains.

NEW YORK, June 6.—Into cell No. 2 of Sheepshead Bay Station Sunday night walked William Owens, forty-eight, printer, No. 268 East 14th street, and John Licato, forty, cash peddler, No. 677 Second avenue. Transfers to each other.

They arrived there by different ways. Owens, with a flash of hoosh on his hip, was making too merry at Coney Island; Licato, sober and sulky, was walking along the right of way of the Brighton Beach elevated railroad near Coney and was arrested for trespassing.

He reached the station at 6 p. m. He was sleeping on the single iron cot in the cell when Owens wanted to be sociable. The occupant of the six other cells saw that. He awakened Licato and proffered the flask.

"Shut up, leave me alone," said Licato.

Owens resumed his song. He sang for a long time. The two prisoners said. Even after the lights were extinguished he continued singing. But at 8:10 yesterday, when a policeman entered with another prisoner, all was quiet. Licato told about it later.

"He was making too damn much noise. I grabbed him by the throat, and choked him. Then I picked him up and rapped his head against the cot. He was pretty quiet by then. But I was still mad. I picked up a milk bottle and hit him over the head. I started to strangle him."

This was Licato's statement in a confession made to a reporter after Owens was taken to the hospital. Owens was taken to the hospital after being strangled by Licato. Owens was taken to the hospital after being strangled by Licato. Owens was taken to the hospital after being strangled by Licato.
